More about me

My enjoyment in helping people has led me to working in Human Services. Working directly with DVR and as a Family Center employee, I feel that I am great with connecting with others while connecting them to the resources they need. Also, as a prior county employee working with the Northern Consortium, I have been

able to assist individuals with working through their financial benefits to identify services they qualify for.

My favorite thing to do is hang out with my dog. We do everything together, kayaking, swimming, and walking. I would bring her to work if I could. To de-stress I like to go for a run or any physical activity. I do not have a green thumb. However, I really enjoy seeing what comes up every summer in my yard.
